COVERS COMFORTABLY AND EASILY

HOW TO HIDE A TATTOO USING *Veil* COVER CREAM

STEP 1 - PREPARATION

- Make sure that the skin is clean and dry by applying the Cleansing Cream, wiping off with a tissue, then applying the Toning Lotion which removes any remaining oiliness.
- Choose the shade of *Veil* Cover Cream that matches the natural skin surrounding the tattoo. Shades can easily be mixed together in the Mixing Jar to make interim colours.

STEP 2 - STARTING THE APPLICATION

- Remove a small amount of the *Veil* Cover Cream from the jar using the spatula.
- Dab on the *Veil* Cover Cream with a finger using a patting motion – do not rub.
- The photo shows coverage half completed.

STEP 3 - FINISHING THE APPLICATION

- Continue to dab on the *Veil* Cover Cream over the whole tattoo area.
- If any part of the tattoo shadows through apply another thin layer dabbed gently on top. Thin layers are more effective than one thick layer.
- Coverage is now complete so gently blend the edges into the natural skin surrounding the tattoo.

STEP 4 - THE FINAL STEP

- The final step is to set the *Veil* Cover Cream with Finishing Powder by fluffing on plenty of Finishing Powder using the Cotton Pad or a dry Cotton Wool ball using a rocking and pressing motion. Do not rub.
- Gently brush off excess Powder and remove any floury look by dabbing the camouflaged area with a damp Cotton Wool pad.
- The Cover Cream is now set and waterproof so will not come off in the rain or when swimming but pat yourself dry rather than rubbing.

Helpful Hints

1. If you are planning to cover your tattoo for an important event such as a wedding or job interview then practise a few times to make it easy on the day.
2. Shades can be mixed to make interim colours. Mix in some WHITE Cover Cream to lighten a colour that is too dark.
3. Choose your shade in natural light not artificial light.
4. Very hairy areas should ideally be shaved first to give a smooth surface.

Caution - do not apply to broken skin

The *Veil* Cover Cream Tattoo Kit is packed in a reusable zip bag and contains:-

- 5 different shades of Cover Cream
- 1 pot of Finishing Powder
- 1 jar of Cleansing Cream
- 1 bottle of Toning Lotion
- 1 empty jar for mixing if required
- 2 spatulas
- 4 cotton pads
